

# Mission Statement

## Growing Together

We believe that learning is a life long activity, which engages everyone in our school community. Working as an efficient and effective multi-disciplinary team, we aim to make our school a happy place where expectations are high and individuals are valued. We aim to achieve a standard of excellence appropriate to each individual, enriching, encouraging and equipping each child for their future education.

### **Our aim is to realise each child's full potential**

#### **We would like children and young learners**

- to become aware of their strengths and appreciate the value of those strengths
- to value themselves and others for who they are
- to know how to motivate themselves and become self-motivated, independent learners both inside the classroom and outside
- to feel inspired and have the strength to realise their dreams

#### **We would like educators**

- to always remember the profoundly important role they play in children's lives
- to keep their purpose, their mission and their enthusiasm alive
- to keep reminding themselves of the reason they became educators in the first place
- to find joy and excitement in discovering new ways in which children learn, both inside and outside the classroom
- to keep in mind the crucial importance of taking good care of their minds, bodies and souls

#### **We would like to ensure parents**

- feel supported in the most important job of all - bringing up their children
- understand and appreciate the uniqueness of every child
- become aware of the fine distinction between truly supporting their children and forcefully motivating them
- find out more about the way they learn and discover the distinction between their own way of learning and that of their child
